IVAGC ARCHITECTS CC

VERIFIED PROFESSIONAL SERVICES APPLICATION PROPOSAL

1. COMPANY INFORMATION

- 1.1. Sivago Architects cc
- 1.2. Info@sivago.co.za
- 1.3. Cell: 071 888 1882
- 1.4. Contact person: Mdingwa Nyathi (Mr)

2. PROJECT DESCRIPTION

The built environment has evolved in the last few years. A growth in the number of Built Environment firms has seem robust competition for the limited work available in the built environment space. This growth has also resulted in the manipulation of systems put in-place to try and fairly evaluate and share the work available. This has seen, in some cases, the unfair distribution of work and the stifling up of up and coming entities. The result is that no new meaningful entities are afforded the space to grow, which goes against the transformation agenda set out by the government of South Africa. For the Government of the day, a mammoth task is left at their door step as the party responsible for procurement of professional service providers in the built environment. Most government departments are not well equipped in terms of resources to understand the intricacies of procurement for the built environment. While the information and guides are available on numerous government policies, the challenge for government is in the implementation of these policy statements for effective management and service delivery.

The application therefore aims to offer verification services of Professional service providers within the built environment as a start. It is anticipated that the model can be duplicated to

 - (Drop-down tab with Professional registration number linked to approve-it 10.10.8.

type system)

11. Upload PDF copy of plans

3. MOBILE PLATFORM

Durban Office: Office 2 Building 4, Glen Eagles Office Park, 10 Flanders Dr. Mt. Edgecombe 4302 North Coast Region: 121 Esiklebheni Street, B/North, Ulundi, 3838

Pietermaritzberg: Suite 4b, Mahagony court, Redlands Estate, 1 George Macfarlane Lane, Pmb, 3201

Email: info@sivago.co.za. Fax: 086 480 7018, Cell. 071 888 1882, 072 3386835

The app should be accessible on mobile smart phones i.e. Android and iOS and desktop computers as well. It should be easily accessible on mobile platforms as the completion of the tabs is earmarked to be completed on site. There should be live updating and be usable offline as well. We are, however; open to suggestions by the developer for advice on which platform is more suitable (i.e. native or cross over).

The name of the application is **VeriProf VPS** (Verified Professional Services). We do not yet have a logo for the application, and we do not have Google Play and App Store accounts.

12. BACK-END FOR A MOBILE APP

- 12.1. The application should interface with other websites/databases such as the SACAP members database, ECSA, SAICE etc to mainly check member validity and standing on a continuous interval bases.
- 12.2. The communication protocol is not yet known as yet developer to advise (REST, SOAP, XML, JSON, etc. ??)
- 12.3. The application should have offline functionality by users.

13. MOBILE APP FUNCTIONALITY

The application should not allow for push notifications. It should allow for geolocation acceptance and integration with payment systems and social networks such as Facebook, LinkedIn, Twitter and Instagram.

Registration on the application is intended to be free for the registration phase. Once submitted the application should take a user to the next phase (Payment Phase) where a verification can be requested by the user, this will then take the user to a payment plan.

Once payment is complete a confirmation email should be sent to the user, a tab to schedule an appointment becomes active and a print tab should be made active. The contents of this letter are yet to be finalised. Once payment has been made and a confirmation letter sent, the application should allow administrative functionality to access the application and verify each of the tabs as entered by the registrant.

Durban Office: Office 2 Building 4, Glen Eagles Office Park, 10 Flanders Dr., Mt. Edgecombe 43/02

North Coast Region: 121 Esikletheni Street, B/North, Ulund, 1838. Pietermaritzberg: Suite 4b, Mahagony court, Redlands Estate, 1 George Macfarlane Lane, Pmb. 3201

Email. into@slvago.co.za, Fax: 085 480 7018, Cell: 071 888 1882, 072 1385835

Assignment of inspector/accessor will then be made, and access granted for the accessor. The application should be able at that point to send confirmation email for a site visit to b conducted. The application should allow the accessor to verify in real time and update each item on the application.

Once complete the application should send an approve it type message to confirm that such inspection did occur (authorised firm rep). Once completed the application should then generate a score sheet indicating compliance or lack there-of of each category. A certificate of confirmation with then be issued to the concerned entity confirming their status.

Envisaged future additions to the app: video and RSS. Desirable feedback from users to be by Email and HelpDesk.

Regards,
